

Touro CA Metabolic Research Center

Recharge Rates, Effective November 1, 2020 **v09.21.20**

Clinical Services:

Service	Service detail	Charge unit	Internal rate*	External academic rate*
Nursing	Vital signs, Anthropometry, Phlebotomy, IV push/infusion, finger stick, urine collection/dipstick, oral medication administration, health assessment, consenting, administering surveys/instruction, study documentation, sample processing, shipment.	Hourly rate, charged in 30 min. increments	\$84	\$121.80
Nursing-inpatient	Overnight nursing, 12-hour shift minimum	Per 12-hr shift, then hourly rate applies	\$1,008/12 hr	\$1461.60
Physician**	For procedures requiring physician or presence of a physician	Per hour, charged in 30 min increments	\$140	\$203
DXA scan, with technician	Includes instrument usage and MRC technician	Per 1 scan	\$60	\$87
DXA scan, no technician	For internal users who have been certified and trained through MRC; or if technician time already included in visit recharge	Per 1 scan	\$30	\$43.50
DXA scan, additional processing	For DXA scan requiring additional data management or QC beyond standard scan	Per ½ hour	\$30	\$43.50
Outpatient Exam Room Fee – Low Intensity	Preparation, restocking of common supplies, medical waste disposal	Per participant visit	\$15	\$21.75
Outpatient Exam Room Fee – Medium Intensity	Preparation, restocking of common supplies, medical waste disposal	Per participant visit	\$40	\$58
Outpatient Exam Room Fee – High Intensity	Preparation, restocking of common supplies, medical waste disposal	Per participant visit	\$100	\$145
Inpatient Room Fee	Preparation, restocking of common supplies, medical waste disposal, cleaning	Per participant visit	\$200	\$290

B. MRC Recharge Rates
V092120

Lab specimen processing	MRC staff for blood, urine, stool sample processing	Per hour	\$45	\$65.25
Pharmacist	Preparation and administration of study medication	Per hour, charged in 30 min increments	\$100	\$145
Pharmacy preparation- stable isotope infusion	Clean room preparation of infusates for kinetic studies.	Per infusion bag	\$250	\$362.50
Consultation and training services	Consultation and training for specialized procedures	Per hour	\$100	\$145
Study Coordinator	Recruitment, scheduling, consenting, data collection and/or management. Includes phlebotomy for licensed study coordinators.	Per hour	\$40	\$58

***External academic user rate = internal rate + 45% surcharge for TUC indirect costs.**

**If physician is co-investigator on the grant, there is no charge

Laboratory Services:

All rates are per sample

Service	Service detail	Per sample rate	
		Internal	External* Academic
De novo lipogenesis (DNL) by GC/MS	Rate is dependent on complexity of assay required (type of ultracentrifugation, particle separation, replicates, QC type, etc.). Contact unit for project specific rate.	\$42 to \$95	\$60.90 to \$137.75
Glucose by GC/MS	Glucose molar % excess	\$45.50	\$65.98
Glucose by GC/MS, bundled with Gluconeogenesis	Glucose molar % excess	\$28	\$40.60
Lactate by GC/MS	Lactate molar % excess	\$45.50	\$65.98
Gluconeogenesis by GC/MS	Gluconeogenesis calculation	\$42	\$60.90
Ultracentrifugation – TRL only	For separation of TRL from plasma	\$14	\$20.30
Plasma glucose	Plasma glucose concentration by YSI	\$7	\$10.15
Plasma lactate	Plasma lactate concentration by YSI	\$7	\$10.15

***External rates include a 45% surcharge for TUC indirect costs.**

***For industry sponsored projects, contact Unit for rates.**
